# PSTN-Pro
for Service Providers

## Bring PSTN lines direct to your digital equipment in seconds

- The wall mounted PBX Pro converts incoming block wiring to single line RJ45 presentations

- Creates an instant Plug and Play environment direct from the PSTN

- Easily accessible RJ45 interfaces make patching to PBX, Routers, faxes or any digital telecoms equipment simple

The PSTN-Pro contains a 237A block and a PCB terminated with 10xRJ45 connectors for easy patching to digital equipment.

PSTN-Pro provides your customers with a fully compliant connectivity product that really works for them
